

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/apm-19-605">http://dx.doi.org/10.21037/apm-19-605</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	(1) Visual field analysis should be conducted alongside consideration of fundus changes. The bulk of visual field defects were found to be relative scotomas. (2) Scotomas in severe myopia patients were mainly due to the enlargement of a physiological blind spot and central scotomas, and nasal arch-shaped scotomas presented as arc-shaped damage. (3) Abnormal scotomas were detected most frequently in the inferior temporal quadrant.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	No.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Ophthalmology doctor
8	For what type of analysis or purpose?	To provide evidence for enabling early diagnosis of primary open-angle glaucoma in cases of SM.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data:zhognhua30@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
