

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/apm-20-1927	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	In particular, data on the correlation between hs-CRP and patient outcomes will be shared. We found an association between hs-CRP level and the outcomes of cardioembolic stroke, which has been rarely studied.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since more factors related to the outcomes of cardioembolic stroke may be discovered over.
7	To whom will you share the data?	Neurologists and cardiologists, and researchers interested in CRP.
8	For what type of analysis or purpose?	For analysis to evaluate the correlation between CRP and stroke
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: fys5@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
