

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/apm-21-208	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The most frequent trauma mechanism and the common Sanders type presence of calcaneus fracture in this population group.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the outcomes of this retrospective study may be furthered in the future.
7	To whom will you share the data?	Orthopaedic surgeons who are interested in the treatment of calcaneus fracture and prevention of calcaneal osteomyelitis.
8	For what type of analysis or purpose?	For analysis to evaluate the possible risk factors of calcaneal osteomyelitis after calcaneus fracture.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: sltdzys@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
